

# IS YOUR PAYCHECK HURRICANE PROOF?

When Hurricane Katrina hit South Louisiana, thousands of employees who were displaced found their paychecks in the possession of their boss who had evacuated to Texas or Georgia. Some saw their paychecks stranded in the mail for months. Thousands of others, who had Direct Deposit, found their money safe and sound in their bank account and were able to access the funds from their new temporary home.

To have your paycheck direct deposited, simply fax us a voided check or savings account deposit slip and your money will be in your account on payday long before you are able to go to the bank to cash a live check. There is no charge for this service!

## **GOT DIRECT DEPOSIT?**

You Should!
